Relevant Accounting & Finance Coursework: Financial Management, Intermediate Accounting, Management Accounting, Taxation, Financial Markets & Securities, Investment Management

SKILLS

Financial Analysis: Financial statement analysis, financial modeling, DCF & comparable-company valuation, forecasting, variance analysis
Risk, Controls & Compliance: Account reconciliation, GAAP revenue recognition, financial controls, audit/assurance support, data-integrity review
Tools & Systems: Advanced Excel, QuickBooks, SAP / SAP Analysis for Office, Oracle HFM, SQL, VBA, Power Automate, SharePoint; Python, Git

EXPERIENCE

Financial Analyst Intern *Mississauga, ON*
Whirlpool Canada *Sep 2025 - Dec 2025*
- Led the 2026 New Business Development (NBD) profit plan and supported the Major Appliances profit plan by building an automated planning template, creating the first formal NBD SOPs, and presenting analyses in senior-leadership business reviews
- Built a post-promotion analysis framework to measure promotional ROI and break-even, using internal pricing-waterfall data to generate insights for the Finance and Sales teams
- Automated the month-end accrual process with a formula-driven Google Sheets solution, eliminating roughly 70% of manual effort while improving accuracy
- Participated in migration from BEx Analyzer to SAP Analysis for Office, rebuilding and validating incompatible reports and training users on the new tools

Business Systems Analyst Intern *Toronto, ON*
CIBC *Sep 2024 - Dec 2024*
- Automated handling of system-generated emails with a VBA solution after Power Automate was unavailable due to licensing, filtering noise and routing responses into folders to cut significant manual effort
- Investigated variances between actual and estimated person-days across projects, working with project managers and time-log data to identify root causes and improve future resource estimates
- Streamlined business-case workflows with Power Automate, migrated SharePoint documentation to improve organization, and created video walkthroughs of the team's Definition-of-Ready framework

Finance Intern *Markham, ON*
GE Grid Solutions *Feb 2024 - May 2024*
- Developed a travel & living (T&L) spend dashboard breaking expenses down by function and by person, giving the team its first way to trace T&L spend by owner
- Converted a P&L reporting template from Essbase to Oracle HFM and ran recurring finance controls, cash-collection reporting, billing reconciliation, order margin adjustments, foreign-exchange clearing, and GAAP revenue deferrals
- Created a full set of onboarding SOPs for future finance interns, standardizing recurring tasks with automated Excel templates to reduce manual work

Assurance Intern *Waterloo, ON*
Grant Thornton LLP Canada *Jan 2023 - Apr 2023*
- Prepared corporate year-end files, including bookkeeping and financial statements, using Sage and QuickBooks
- Prepared a high volume of personal tax returns, improving efficiency by incorporating reviewer feedback across files

PROJECTS

Financial Modeling & Valuation
BU403 Entrepreneurial Finance - MyStoria (SaaS) *Spring 2026*
- Developed an Excel-based sales and revenue forecast for MyStoria, a SaaS company, translating market-sizing and growth assumptions into a multi-period revenue projection
- Performed discounted cash flow and comparable-company valuation, building WACC and terminal-value assumptions and a peer multiple set to derive an implied valuation range
